

Group Project SQ1 Test Plan

CMP 4500 Intro to software profession

By: Curtis Been and Hassan Bhatti

Date of First Test Plan: 02/18/2025

Planned Project Tests

- Test print to screen explanation
 - Run Program , expected output : message (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test file name input
 - Enter File name (.csv) (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- test csv check (not case sensitive)
 - Enter A Csv file and accept it if it is one (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test non csv error message
 - Input a non Csv file and an error message should print to screen (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test file opening
 - Enter a valid CSV and it should open (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test file not found error message
 - Enter a valid file name that does not exist and an error message should print (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test reprompt for file name
 - Enter Valid non existent file and it should ask for a new file after error message (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test file reading line by line
 - Input valid file and it should be read line by line (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test name recognition (only english letters , numbers , blanks , and underscores)(no commas)
 - Test valid names (Curtis B3en , Hassan Bhatti) and invalid names (Bhatti-Been) non valid names should be excluded (COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test name counting

- Input a list of names (2) and it should count 2 names
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test date recognition (01/01/2025) (not 1/1/25)
 - Input valid (01/01/2025) and invalid (1/1/25) dates and valid should be counted while invalid should be left out
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test next line check for all real non negative numbers
 - Input valid numbers 1,2,3 and invalid -1,-2,-3. Valid should be recorded and invalid should not
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test opening of names . txt
 - Run program and see if names . txt opens
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test opening of DatedData.txt
 - Run program and see if DatedData . txt opens
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test file overwriting (names and Dated Data)
 - Write to Dated data and names and run program to check if it overwrites them
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test write to and closing of names . txt (one name per line)
 - Run program and lists should be written to files
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test write and closing of DatedDates.txt (one date per line in the same order as the names)
 - Run program and lists should be written to files
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test opening of PresentAbsent . txt
 - Run program and see if PresentAbsent . txt opens
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test overwriting of PresentAbsent .txt
 - Write to file and see if program overwrites it

(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)

- Test write and close of Present absent .txt
 - Run program to see if file is written to and then closed
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test end message prompt to press enter
 - At the completion of the program a message should display
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
- Test stopping program on enter press
 - Input enter and program should close
(COMPLETED: 02/21/2025 by Hassan Bhatti and, Curtis Been)
